DETAILED ACTION

1. This office action is in response to the amendment after final filed on 06/21/04.

Further, as a result from an interview on 06/16/04, the finality dated 03/29/04 is withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. **Claims 8, 9, 11, 19** are rejected under 35 U.S.C. 102(e) as being anticipated by Dumont (US 6,140,858).

Regarding claim 8, Dumont discloses the claimed subject matter "A communication having a protection circuit with first and second strings of series connected diodes; wherein the strings are independently controllable to carry predetermined independent DC currents" in Figure 2, elements 62-65, wherein

Art Unit: 2634

elements 62, 63 teach a first string of series connected diodes and elements 64, 65 teach a second string of series connected diodes. The current in the first and second string of diodes are "independently controllable", for instant, by element 107.

Regarding claim 19, see claim 8 above.

Regarding claim 9, Dumont further teaches the claimed subject matter "wherein ... supply terminals" in Figure 2, elements 53, 71, 106, and ground.

Regarding claim 11, Dumont further teaches the claimed subject matter "wherein ... therebetween" in Figure 2, elements 58, 59.

Allowable Subject Matter

4. **Claims 1-5, 7, 12-18** are allowed.
